If it is a question of obtaining only one book like sample submitted, it will be much cheaper to purchase it ready made than to have it specially printed in the Govt. Press. If a number are in general use, & bought locally as required, it would perhaps be better to make the required quantity in the Press & have them got through the Medical Stores, as in the case with departmental forms, &c.

Sir,

In enclosing herein Comptroller's objection ending with his No. 576 T.A.M. dated 3-6-1914, regarding the purchase of certain blank books locally, I have the honor to state that the books under reference being specially suited for writing prescriptions and other orders for the treatment of indoor patients in all medical institutions, they are being purchased locally for the past many years as the Government Stationery Depot has no such book on its list. But the Comptroller has now objected to the purchase of such books without the previous sanction of Government.

2. I therefore request that you will be so good as to obtain the sanction of Government to the purchase of these books locally as heretofore and to advise the Comptroller to admit the expenditure that might have been incurred up to date without such sanction.

I have the honor to be,
Sir,
Your most obedient servant,

Arumugam

Senior Surgeon.
